

RAAL[®]
complete cooling solutions

RADIATORS

RADIATORS

PLATE&BAR RADIATORS (water-air)

EQUIPMENT and APPLICATIONS

- Agricultural and forestry equipment
- Construction and mining equipment
- Commercial vehicles and railway equipment
- Industrial equipment
- Military equipment

FEATURES

- Robust and compact construction
- Flexibility in choosing the right geometry of elements, to optimize performance
- A very large dimensional range
- High resistance to mechanical and thermal loads

SHELL RADIATORS (water-air)

- Reduced weight and costs
- Good heat transfer performances
- Attractive design
- High resistance to thermal loads
- Suitable for medium and large series

EQUIPMENT and APPLICATIONS

- Agricultural and forestry equipment
- Construction and mining equipment
- Compressors
- Industrial equipment
- Hydraulic equipment

TUBE&FIN RADIATORS (water-air)

EQUIPMENT and APPLICATIONS

- Automotive
- Commercial vehicles
- Genset and industrial equipment
- Agricultural and forestry equipment

FEATURES

- Reduced weight and costs
- Good heat transfer performances
- Attractive design
- Suitable for medium and large series
