

RAAL[®]
complete cooling solutions

RADIATORS

RADIATORS

PLATE&BAR RADIATORS (water-air)

- Robust and compact construction
- Flexibility in choosing the structures to optimize the performances
- A very large dimensional range
- High resistance to mechanical and thermal loads

EQUIPMENT and APPLICATIONS

Agricultural and forestry equipment
Construction and mining equipment
Commercial Vehicles

Railway equipment
Military equipment
Industrial equipment

SHELL RADIATORS (water-air)

- Reduced weight and costs
- Good heat transfer performances
- Attractive design
- High resistance to thermal loads
- Suitable for medium and large series

EQUIPMENT and APPLICATIONS

Agricultural and forestry equipment
Construction and mining equipment
Compressors
Industrial equipment
Hydraulic equipment

TUBE&FIN RADIATORS (water-air)

- Reduced weight and costs
- Good heat transfer performances
- Attractive design
- Suitable for medium and large

EQUIPMENT and APPLICATIONS

Automotive
Commercial Vehicles
Industrial equipment
Gen-sets
Agricultural and forestry equipment
