

RAAL FINS AND TURBULATORS

The unique RAAL fin forming technology allows the development of a wide range of fins and turbulators, conforming to the application requirements.

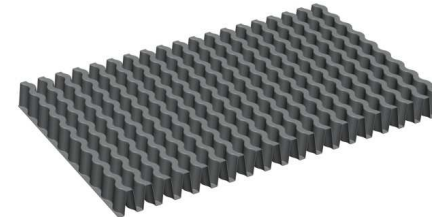

RAAL fins have the optimum geometry suited for each fluid involved in the thermal transfer process.

RAAL patented fin forming machines can achieve, with simple adjustments, the required geometries (pitch, height, etc).

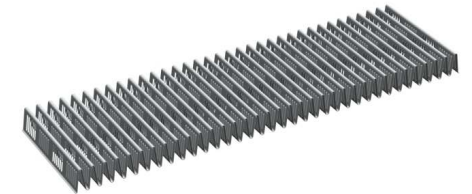

RAAL FINS AND TURBULATORS

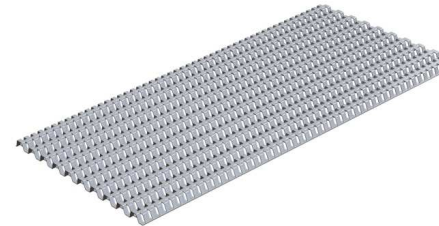

STANDARD RAAL FINS AND TURBULATORS

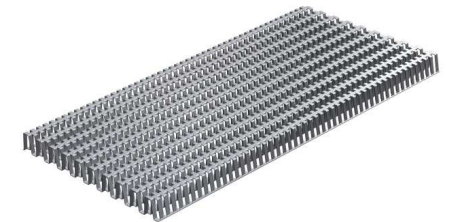

WAVY AIR FIN

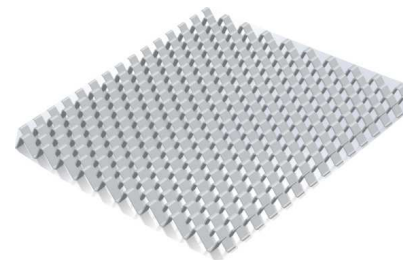

LOUVERED AIR FIN

OFFSET OIL TURBULATOR

OFFSET AIR TURBULATOR

OFFSET "X" OIL TURBULATOR

OFFSET WATER TURBULATOR
